Therefore we will make a **BIG family and friends cheering area**, which will make the finish of Raid Lowlands a **unique experience** for both the participants, as family and friend as well. ## TACTICAL FOODPACK

Tactical Foodpack is a new and much appreciated partner of the ARWS European Series. The idea for Tactical Foodpack came from a medic in the Estonian Special Operations Force who in his everyday work was faced with complicated conditions that put both physical and mental health to the test. The moments where one could take time out and enjoy a quick snack in the company of one's team mates became more and more valuable. Especially having to spend long periods of time away from home. These are the moments that allow you to travel down memory lane, home once again, thinking of all your loved ones, drawing strength to keep going. Your team mates are an immense source of support. This is a very nice parallel to adventure racing!

Therefore, they have created a product line that offers a long shelf-life with no added preservatives or additives – it's all natural, honest, and has a home-made feel to it. Just pour hot water on the food, wait a beat, and enjoy delicious flavors straight from the pouch.

On behalf of **Tactical Foodpack** we may offer you a nice discount code (-20%) for products of this high quality brand, use the code **TacticalLOWLANDS** on the their website: [www.tacticalfoodpack.com](http://www.tacticalfoodpack.com)

## LAB'VENTURE
